I hereby request access under 37 CFR 1.14(a)(3)(iv) to the application file record of the above-identified ABANDONED application, which is: (CHECK ONE)

☒ (A) referred to in United States Patent Number 5,851,832, column _____

☐ (B) referred to in an application that is open to public inspection as set forth in 37 CFR 1.11, i.e., Application No. _____, filed _____, on page _____ of paper number _____.

☐ (C) an application that claims the benefit of the filing date of an application that is open to public inspection, i.e., Application No. _____, filed _____, or

☐ (D) an application in which the applicant has filed an authorization to lay open the complete application to the public.

Please direct any correspondence concerning this request to the following address:

Burden Hour Statement: This form is estimated to take 0.2 hours to complete. Time will vary depending upon the needs of the individual case. Any comments on the amount of time you are required to complete this form should be sent to the Chief Information Officer and Trademark Office, Washington, DC 20231. Do not fax this form. You should send forms to P.O. Box 1000, Assistant Commissioner for Patents, Washington, DC 20231.

United States Patent [19]

Weiss et al.

[11] Patent Number: 5,851,832

[45] Date of Patent: Dec. 22, 1998

[54] IN VITRO GROWTH AND PROLIFERATION
OF MULTIPOTENT NEURAL STEM CELLS
AND THEIR PROGENY[75] Inventors: Samuel Weiss; Brent Reynolds, both
of Alberta, Canada; Joseph P.
Hamming; E. Edward Baetge, both of
Barrington, R.I.

[73] Assignee: Neurospheres, Ltd., Canada

[21] Appl. No.: 486,648

[22] Filed: Jun. 7, 1995

[57] ABSTRACT

A method for the in vitro proliferation and differentiation of neural stem cells and stem cell progeny comprising the steps of (a) isolating the cells from a mammal, (b) exposing the cells to a culture medium containing a growth factor, (c) inducing the cells to proliferate, and (d) inducing the cells to differentiate is provided.
